Task01.c

```c
#include <stdio.h>

typedef unsigned short meter_t;

unsigned int consumption(meter_t previous, meter_t current)
{
    return (meter_t)(current - previous);
}

int main(void)
{
    meter_t prev, curr;
    unsigned int units;

    printf("Enter previous meter reading: ");
    scanf("%hu", &prev);

    printf("Enter current meter reading: ");
    scanf("%hu", &curr);

    units = consumption(prev, curr);

    printf("Units consumed = %u\n", units);

    return 0;
}
```
